SAFETY DATA SHEET

Product name: Nava 3" Chlorinating Tablets
Product id: AS_9716-3C_NA
Revision date: 18/12/2013
Supersedes: 21/11/2010

1. Identification of the substance & the company

Chemical name: Trichloro-s-triazinetrione
Synonym(s): Trichloroisorcyanuric Acid; TCCA; Trichlor; Trichloro-s-triazinetrione; Symclosene
Chemical formula: C$_3$Cl$_3$N$_3$O$_3$
Chemical family: Chloroisocyanurate
Molecular weight: 232.41
Type of product and use: For disinfectant, sanitizers, fungicides, bactericides and algacides for pools, spas and hot tubs
Supplier: NAVA Water Products
95 MacCorkle Ave. SW,
South Charleston, WV 25303,
USA
Toll Free Number: 1-800-811-2327
Emergency Telephone: Chemtrec (800)424-9300
Medical (800)420-9236

2. Hazards identification

GHS classification: Ox. Sol. 2 H272, May intensify fire; oxidiser.
Acute Tox. 4, H302 Harmful if swallowed
Eye Irrit. 2, H319 Causes serious eye irritation
USA: Eye Irrit. 2A, Causes serious eye irritation
STOT SE 3, H335 May cause respiratory irritation
Aquatic Acute 1, H400 - Very toxic to aquatic life
Aquatic Chronic 1, H410 - Very toxic to aquatic life with long lasting effects

Labels and other form of warning
Symbol(s):

{ Page 1 of 11 }
SAFETY DATA SHEET

Product name: Nava 3" Chlorinating Tablets
Product id: AS_9716-3C_NA
Revision date: 18/12/2013
Revision: 5
Supersedes: 21/11/2010

Signal Word: DANGER

Hazard statements:
H272 - May intensify fire; oxidizer
H302 - Harmful if swallowed
H319 - Causes serious eye irritation
H335 - May cause respiratory irritation
H410 - Very toxic to aquatic life with long lasting effects
EUH031 - Contact with acids liberates toxic gas

Precautionary statements:
P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking
P221 - Take any precaution to avoid mixing with combustibles/other chemicals
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P273 - Avoid release to the environment
P391 - Collect spillage
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P330 - Rinse mouth
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention.
P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing
P312 - Call a POISON CENTER or doctor/physician if you feel unwell
P220 - Keep/Store away from clothing/ combustible materials
P264 - Wash hands thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P370 + P378 - In case of fire: Use water for extinction
P405 - Store locked up
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P501 - Dispose of contents/container in accordance with national and international regulations

Potential environmental effects:
Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

NFPA Ratings (Scale 0-4):
Health = 3, Fire = 0, Reactivity = 2. Special Hazard Warning: OXIDIZER.

HMIS Ratings (Scale 0-4):
Health = 3, Fire = 0, Reactivity = 2

4. First-aid measures

Eye contact: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Skin contact: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Ingestion: Call poison control center, or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Most important symptoms and effects, acute or delayed

- Eye Contact: Severe irritation and/or burns can occur following eye exposure. Contact may cause impairment of vision and corneal damage.

- Skin contact: Dermal exposure can cause severe irritation and/or burns characterized by redness, swelling and scab formation. Repeated skin exposure may cause tissue destruction due to the corrosive nature of the product.

- Inhalation: Irritating to the nose, mouth, throat and lungs. It may also cause burns to the respiratory tract with the production of lung edema that can result in shortness of breath, wheezing, choking, chest pain, and impairment of lung function. Inhalation of high concentrations can result in permanent lung damage from the corrosive action of the lung.
SAFETY DATA SHEET

Product name: Nava 3" Chlorinating Tablets
Product id: AS_9716-3C NA
Revision date: 18/12/2013
Supersedes: 21/11/2010
Revision: 5

- Ingestion

Irritation and/or burns can occur to the entire gastrointestinal tract, including the stomach and intestines, characterized by nausea, vomiting, diarrhea, abdominal pain, bleeding and/or tissue ulceration. Ingestion causes severe damage to the gastrointestinal tract with the potential to cause perforation.

Note to physician

Probable mucosal damage may contraindicate the use of gastric lavage.
Corrosive
No specific antidote.
In case of ingestion DO NOT induce vomiting.
Treat symptomatically and supportively.

Medical conditions aggravated by exposure

Asthma, respiratory and cardiovascular diseases.

5. Fire - fighting measures

Suitable extinguishing media

Water. Large amounts of water may be needed and the flow of water should not be stopped until the fire/reaction has stopped.

Extinguishing media not to be used

Do not use dry chemical extinguisher containing ammonia compounds.

Unusual fire and explosion hazards

When heated to decomposition, may release poisonous and corrosive fumes of nitrogen trichloride, chlorine, nitrous oxides, cyanates, carbon monoxide and carbon dioxide.

Fire fighting procedure

Cool containers with water spray. Fire fighters should wear full protective clothing and self-contained breathing apparatus (SCBA) in positive pressure mode. On small fires, use water spray or fog. On large fires, use heavy deluge or fog streams. Flooding amounts of water may be required before extinguishment can be accomplished.

6. Accidental release measures

**Personal precautions**
For small spills in a well-ventilated areas, wear a NIOSH approved half-face or full face tight fitting respirator or a loose fitting powered air purifying respirator equipped with chlorine cartridges. Chemical goggles should be worn when using a half-face respirator. In addition to respiratory protection, wear coveralls, chemical resistant gloves, chemical resistant footwear; and chemical resistant headgear for overhead exposure. For clean-up of large spills, or small dry spills in confined areas, wear full-face respirator with chlorine cartridges or a positive pressure supplied air respirator. Additionally, body protection should be impervious clothing covering entire body to prevent personal contact with material. CAUTION - Protection concerns must also address the following: If this material becomes damp/wet or contaminated in a container, the formation of nitrogen trichloride gas may occur and an explosive condition may exist.

**Methods for cleaning up**
Hazardous concentrations in air may be found in local spill area and immediately downwind. If spill material is still dry, do not put water directly on this product as a gas evolution may occur.

**Environmental precautions**
Prevent entry into sewers and watercourses

- **Soil**
  Do not contaminate spill material with any organic materials, ammonia, ammonium salts or urea. Clean up all spill material with clean, dry dedicated equipment and place in a clean dry container.

- **Water**
  This material is heavier than and soluble in water. Stop flow of material into water as soon as possible. Begin monitoring for available chlorine and pH immediately.

- **Air**
  Vapors may be suppressed by the use of water fog.

7. **Handling and storage**

**Handling**
Avoid bodily contact. Do not take internally. Upon contact with skin or eyes, wash off with water.

**Storage**
Store in a dry, cool, well-ventilated area away from incompatible materials (see "materials to avoid"). Product has an indefinite shelf-life limitation. Do not store at temperatures above 60°C/140°F. Available chlorine loss can be as little as 0.1% per year at ambient temperatures.

8. **Exposure controls / personal protection**

**Exposure Limits :**

Ventilation requirements: Use local exhaust ventilation to minimize dust and chlorine levels where industrial use occurs. Otherwise, ensure good general ventilation.

Personal protective equipment:
- Respiratory protection: When dusty conditions are encountered, wear a NIOSH/OSHA full-face respirator with chlorine cartridges for protection against chlorine gas and dust/mist pre-filter.
- Hand protection: Neoprene gloves
- Eye protection: Use chemical safety glasses to avoid eye contact. Where industrial use occurs, chemical goggles may be required.
- Skin and body protection: Body covering clothes and boots

Hygiene measures: Do not eat, smoke or drink where material is handled, processed or stored. Wash hands thoroughly after handling and before eating or smoking. Safety shower and eye bath should be provided.

Particle size
Not available

10. Stability and reactivity

Reactivity
Contact with small amounts of water may result in an exothermic reaction with the liberation of toxic fumes.

Stability
Stable under normal conditions

Possibility of hazardous reactions
Decomposes when heated, releasing poisonous and corrosive fumes.

Conditions to avoid
Heating above 225°C (437°F).

Materials to avoid
Do not package in paper or cardboard.
Organic materials, reducing agents, nitrogen containing materials, other oxidizers, acids, bases, oils, grease, sawdust, dry fire extinguishers containing monoammonium compounds.

Hazardous decomposition products
Nitrogen trichloride, chlorine, nitrous oxides, cyanates, carbon monoxide, carbon dioxide.

11. Toxicological information

Likely Routes of Exposure
Skin
Inhalation
Eye contact
Ingestion

Acute toxicity:
- Rat oral LD50
  809 mg/kg
- Rabbit dermal LD50
  >2000 mg/kg
- Eye irritation (rabbit)
  Corrosive
- Dermal irritation (rabbit)
  Corrosive
Dermal sensitization
Not a sensitizer
## SAFETY DATA SHEET

### 1. Product Information

<table>
<thead>
<tr>
<th>Product name</th>
<th>Nava 3” Chlorinating Tablets</th>
</tr>
</thead>
<tbody>
<tr>
<td>Product id</td>
<td>AS_9716-3C_NA</td>

<td>21/11/2010</td>
</tr>
</tbody>
</table>

### 2. Chronic toxicity

Prolonged exposure may cause damage to the respiratory system. Chronic inhalation exposure may cause impairment of lung function and permanent lung damage.

### 3. Mutagenicity

Not mutagenic in five Salmonella strains and one E.coli strain with or without mammalian microsomal activation.

### 4. Carcinogenicity

Not classified by IARC, OSHA, EPA. Not included in NTP 12th Report on Carcinogens.

### 5. Reproductive toxicity

There are no known or reported effects on reproductive function or fetal development. Toxicological investigation indicates it does not affect reproductive function or fetal development.

### 12. Ecological information

#### Aquatic toxicity:

- **96 Hour-LC50, Fish**
  - 0.32 mg/l (Rainbow trout)
  - 0.30 mg/l (bluegill sunfish)
- **48 hour-LC50, Daphnia magna**
  - 0.21 mg/l

#### Avian toxicity:

- **Oral LD50, Mallard duck**
  - 1600 mg/kg
- **Dietary LC50, Mallard duck**
  - >10,000 ppm
- **Dietary LC50, Bobwhite quail**
  - 7422 ppm

#### Persistence and degradability

Expected to biodegrade (Lit.)

#### Bioaccumulative potential

Not expected to bioaccumulate (Lit.)

#### Mobility in soil

Expected to be highly mobile in soil (Lit.)

#### Germany, water endangering classes (WGK)

3

### 13. Disposal considerations
SAFETY DATA SHEET

Product name: Nava 3” Chlorinating Tablets
Product id: AS_9716-3C_NA
Revision date: 18/12/2013
Supersedes: 21/11/2010
Revision: 5

Waste disposal
Observe all federal, state and local environmental regulations when disposing of this material.
If this product becomes waste, it will be a hazardous waste that is subject to the Land Disposal Restrictions under 40 CFR 268 and must be managed accordingly. Care must be taken to prevent environmental contamination from the use of this material.

Disposal of Packaging
Empty containers should be disposed of in accordance with all applicable laws and regulations

14. Transportation information

UN No. 2468
DOT
Proper shipping name: Trichloroisocyanuric Acid Dry
Class: 5.1 - Oxidizing substances
Label: Oxidizing substances (5.1)
Packing Group: II
Emergency Guide No.140

Note: Certain shipping modes or package sizes may have exceptions from the transport regulations and may be classified as Consumer Commodity and Limited Quantity. The classification provided may not reflect those exceptions and may not apply to all shipping modes or package sizes.

IMDG
Proper shipping name: Trichloroisocyanuric Acid Dry
Class: 5.1 - Oxidizing substances
Label: Oxidizing substances (5.1)
Packing Group: II
Mark: MARINE POLLUTANT

ICAO/IATA
Proper shipping name: Trichloroisocyanuric Acid Dry
Label: Oxidizing substances (5.1)
Class: 5.1
Packing group: II
Marking: Environmentally hazardous substance

15. Regulatory information

USA
Reported in the EPA TSCA Inventory.
This product is registered under FIFRA

- EPA Registration no.
- Emergency overview in accordance to EPA Master Label
  - DANGER
  - Hazards to humans and domestic animals
  - Corrosive
  - Causes irreversible eye damage or skin burns
  - May be fatal if inhaled
  - May be fatal if absorbed through skin
  - Strong oxidizing agent
  - This pesticide is toxic to fish and aquatic organisms.

- SARA (311, 312)
  - This product is categorized as an immediate health hazard, and fire and reactivity physical hazard
  - This product does not contain a chemical listed at or above de minimis concentrations

- Massachusetts Right-to-Know Hazardous Substances list
  - Listed

- New Jersey Right-to-Know Hazardous Substances list
  - Listed

- Pennsylvania Right-to-Know Hazardous Substances list
  - Listed

- Waste Classifications
  - If this product becomes a waste, it meets the criteria of a hazardous waste as defined under 40 CFR 261 and would have the following EPA hazardous waste number: D001.

- Workplace Classification
  - This product is considered hazardous under the OSHA Hazard Communication Standard (29 CFR 1910.1200)

  Canada
  - Listed in DSL

  - WHMIS hazard class
    - C oxidizing materials
    - D1B Toxic material causing immediate and serious toxic effects
    - D2B Toxic materials causing other toxic effects

  EU
  - Reported in EINECS

  EC No.
  - 201-782-8

  Japan
  - ENCS no. 5-1044
  - ISHL no. 5-1044

  Australia
  - Listed in AICS
