MAGIC

One-Step Clean and Etch

Clean your pool surface without the extra steps of traditional cleaning.

Olympic PREP MAGIC (245) is a one-step, clean and etch pool surface preparation solution that allows you to clean your surface **without the extra steps of traditional surface cleaning**. Simply mix PREP MAGIC with water, clean your surface, and then rinse.

POOL SURFACES

This product can be used on bare concrete, gunite, marcite, bare fiberglass, plaster, and painted surfaces. Following are dilution rates for various surfaces.

For Bare Concrete, Marcite, Gunite, and Plaster: Mix 1 gallon of PREP MAGIC with 2 gallons of water. Always use a water-filled plastic container before pouring in the PREP MAGIC. This will clean and etch approximately 400 square feet.

For Bare Fiberglass and Painted Surfaces: Mix 1 gallon of PREP MAGIC with 4 gallons of water. Always use a water-filled plastic container before pouring in the PREP MAGIC. This will clean and etch approximately 700 square feet.

For Pool Filters: Mix 1 gallon of PREP MAGIC to 5 gallons of water. Always use a water-filled plastic container before pouring in the PREP MAGIC. Soak for 1 hour. Rinse thoroughly and repeat as necessary to completely clean scum and mineral deposits.

DIRECTIONS

1. Wet surface with water.
2. Use a garden sprayer or similar equipment to apply solution.
3. Scrub surface thoroughly until foam stops.
4. Rinse thoroughly and allow to dry completely, unless using a water-based product.

CLEANING EQUIPMENT

Clean all equipment with water immediately after using.

ADVANTAGES

- Turns 3 steps into 1-step process
- VOC complaint
- Low-odor
- Biodegradable
- Water rinse to neutralize
- Also used to clean pool filters
